ARTEM ZHDANOV

Seeking an M1 Research Project or Research Internship · 2027

Grenoble, France | a.zzhdanov@gmail.com | +33 7 43 75 43 50 | linkedin.com/in/zhdanovartem | azzhdanov.github.io

PROFILE

Software engineer with 5 years of production experience (ERP integrations, carbon accounting, AI agents, AWS cloud). Currently on an exchange year in the MSc Informatics (M1, MoSIG) at Université Grenoble Alpes; seeking an M1 research project (January – May 2027) and a summer research internship (June – August 2027) in AI, data, or software engineering. Trilingual (English, French, Russian); basic Spanish.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, TypeScript, SQL, Apex

AI & Data: PyTorch, Scikit-learn, NumPy, Pandas, LLM applications, RAG, AI agents, data pipelines / ETL

Backend & Cloud: REST/SOAP APIs, FastAPI, Node.js, AWS, Azure, Salesforce, SAP S/4HANA, PostgreSQL, SQL Server

Tools & Methods: Git, CI/CD, Linux, Agile / Scrum

Domain Expertise: Carbon accounting (GHG Scopes 1–3), ESG reporting, energy systems data

EDUCATION

Université Grenoble Alpes — **Sept 2026 – June 2027**

MSc Informatics (M1) – Exchange Year, MoSIG

- **Current coursework:** Intro to AI, Algorithmic Problem Solving, Compiler Design, Software Engineering, Visual Computing

Toronto Metropolitan University — **Jan 2025 – Aug 2027**

Bachelor of Science (Honours) (Bac+4 equivalent), Computer Science

- **Cumulative GPA:** 4.07/4.33
- **Coursework:** Data Structures and Algorithms, Operating Systems, Linear Algebra, Data Analysis

Niagara College — **Sept 2019 – Dec 2021**

Advanced Diploma (Bac+3 equivalent), Computer Programming and Analysis

- **Cumulative average:** 95/100 · Keith Segal International Student Scholarship (2021)

PROFESSIONAL EXPERIENCE

Technology Developer — Purolator Inc. — **Feb 2022 – Aug 2026**

Mississauga, Canada

- Replaced a business-critical ERP interface with an in-house solution: −30% licensing costs, −75% invoice errors
- Built real-time error logging and automated reconciliation, surfacing $3M CAD in missed revenue
- Architected Net Zero Cloud carbon accounting models (Scopes 1–3): 400+ components, 7 production releases
- Built and deployed AI agents for Sales and Customer Care teams, raising productivity by 25%
- Owned CI/CD and release management: 400+ merge requests, 12+ deployments per year, zero incidents

Technologies: Salesforce, Apex, Java, Python, JavaScript, AWS, REST/SOAP APIs, SQL Server, SAP S/4HANA, Git

Computer Programmer, Research Assistant — Niagara College Research & Innovation — **Mar 2021 – Dec 2021**

Welland, Canada

- Built full-stack applications for soil and mineral analysis with interactive data visualizations for applied research
- Optimized data pipelines and queries: up to +40% performance, −25% storage costs
- Built reusable UI components with the research team: 50+ defects fixed, shipped 2 months early

Technologies: Python, C#, .NET, PostgreSQL, MongoDB, Angular, TypeScript

CERTIFICATIONS

- Salesforce Certified Advanced Administrator (2023, ID 3992685)
- Salesforce Certified Administrator (2022, ID 2811244)
